

Paris, the 14<sup>th</sup> of January 2016  
Press Release

## > Frédérique Vincent, new Director of Education and International Affairs at Institut Mines-Télécom

Frédérique Vincent, the former Director of the Higher Institute for Environmental Engineering and Management (Institut Supérieur d'Ingénierie et de Gestion de l'Environnement, ISIGE) at Mines ParisTech, took over the position of Director of Education and International Affairs at the Institut Mines-Télécom Directorate General on 4 January 2016. She replaces Jean-Claude Bara, who has retired.

Frédérique Vincent has a PhD in Hydrology and Quantitative Hydrology from École des Mines de Paris. She began her career researching issues of soil pollution and the behavior of waste. She cofounded ISIGE in 1992 within Mines ParisTech and has been its Director since 2002. In this position, she has contributed to the creation of several training courses in the area of the environment, including some dual degrees with prestigious foreign universities, including Tsinghua University in Beijing and the University of Pennsylvania in the United States.

As a Professor of Environmental Science, for over ten years she has reflected on innovations in teaching methods in order to respond to the issues of sustainable development. In 2001, she was involved in setting up the Virtual Graduate School of the Écoles des Mines Group. Then, in 2005, she participated in creating the Virtual University for the Environment and Sustainable Development. Her research focuses primarily on industrial ecology and the sustainable city.

"I am pleased to lead and coordinate actions in the area of teaching. Teaching methods have experienced a true revolution due to digital technology and the ecological challenges to be faced in the next few years. Institut Mines-Télécom offers a context that brings together these aspects to better prepare the future engineer."

### À propos de l'Institut Mines-Télécom [www.mines-telecom.fr](http://www.mines-telecom.fr)

L'Institut Mines-Télécom est un établissement public dédié à l'enseignement supérieur et la recherche pour l'innovation, dans les domaines de l'ingénierie et du numérique. A l'écoute permanente du monde économique, il conjugue une forte légitimité académique et scientifique, une proximité concrète avec les entreprises et un positionnement unique sur 3 transformations majeures du XXI<sup>e</sup> siècle : Numérique, Énergétique et Écologique, Industrielle. Ses activités formation et recherche pour l'innovation se déploient au sein des grandes écoles Mines et Télécom sous tutelle du ministre en charge de l'Industrie et des communications électroniques. L'Institut Mines-Télécom est membre fondateur de l'Alliance Industrie du Futur. Il entretient des relations étroites avec le monde économique et dispose de deux Instituts Carnot. Chaque année une centaine de start-up sortent de ses incubateurs.
