

Press release

December 2023

Samir Ould-Ali appointed Secretary-General of Institut Mines-Télécom

Institut Mines-Télécom (IMT) announces the appointment of its new Secretary-General by the decree of September the 25th made by the Minister of Economy, Finance and Industrial and Digital Sovereignty. Samir Ould Ali will begin his new duties on January the 1st for a five-year term. In light of the institution's political, organizational and regulatory context, his main responsibilities will be to manage support services (HR, finance, legal, information systems and heritage) for IMT as a whole. Samir Ould Ali is also involved in developing and implementing Institut Mines-Télécom's strategy.

Samir Ould-Ali has spent the majority of his career in health and medical research. From 2004 to 2008, he was the head of human resources at Inserm's regional delegation in Lille [a public institute dedicated to biomedical research and human health]. He was the director of human resources and director of the vascular division at the Roubaix hospital center from 2008 to 2011 before returning to Inserm. In 2011, he served as a North-West Regional Delegate for Inserm. This included contributing to the development and management of site policies.

He holds a Master's degree in Modern History from the University of Lille and an Advanced Master's degree from Essec Business School in Cergy-Pontoise. Samir Ould Ali is 47 years old. He is also a Knight of the Order of Academic Palms (2021).

He began his career in 2003 as a human resources, classifications and compensation policy manager at Servair S.A. (Air France Group), at Roissy-Charles-de-Gaulle airport.

He will be a full member of the executive management team at Institut Mines-Télécom. He will participate in the College of School Directors and lead the network of secretary-generals from IMT schools. He will attend meetings of the Board of Directors in an advisory capacity. He will contribute to the implementation of the establishment's strategic orientations and development. He will also lead IMT's operations and management.

Samir Ould Ali: *“The world of education and research is progressing everyday thanks to the commitment of its workforce. I am pleased and proud to join Institut Mines-Télécom and help the 4,600 staff members complete their teaching, research and support services activities in optimal conditions by providing a modern and collaborative working environment.”*

About Institut Mines-Télécom

Institut Mines-Télécom is the leading public group of French engineering and management schools to be placed under the supervisory authority of the Ministry of the Economy, Finances and Industrial and Digital Sovereignty. It is a public research and higher education institution made up of eight public graduate schools: IMT Atlantique, IMT Mines Albi, IMT Mines Alès, IMT Nord Europe, Institut Mines-Télécom Business School, Mines Saint-Étienne, Telecom Paris and Telecom SudParis as well as two subsidiary schools: EURECOM and InSIC. It leads and develops a rich ecosystem of partner schools and economic, academic and institutional partners and players in training, research and economic development. Created to meet France's needs in economic and industrial development since the 19th century, Institut Mines Télécom's graduate schools have supported all the communications and industrial revolutions. Through its research and its training of engineers, managers and PhD students, Institut Mines-Télécom tackles the major industrial, digital, energy and environmental challenges in France, Europe and around the world. Today, Institut Mines-Télécom and its 10 schools are imagining and building a world that combines science, technology and economic development with a respect for the planet and the people who live on it. It is double Carnot certified and trains 13,600 students every year.
